WRAP UP & EVALUATIONS

Dear Foot Care Conference Attendees,

COMPRESSION SOCKS ARE HERE AGAIN!

It is once again time to think about taking care of you and your leg health. As you know compression socks help minimize and control swelling and leg pain, and now are very fashionable. They will keep your legs energized with every step!

We will be attending the Foot Care Nurses Conference in September.

The process for how we submit claims has changed this year:

- We will require a prescription to be obtained first and brought with you to the conference. Ensure that compression strength and diagnosis are indicated on the prescription and please note, prevention is not a covered benefit under some plans.
- Due to unforeseen issues with some insurance companies, we are no longer direct billing. You will have to pay the full amount of your order upfront and your insurance company will reimburse you directly.
- Placing your order ahead of time with us at the pharmacy will enable us to bring your socks to the conference, otherwise your order will be delivered or mailed out to you.

If you have any questions regarding the new process or would like to place an order ahead of time, please call us at the pharmacy.

Looking forward to seeing you at the conference
